AI & AUTOMATION

MCP

- MCP (Figma)
- Claude Code

Focus

- UI development · Design Systems · Workflow automation

STACK

Core

- HTML5 · CSS3 · SASS
- Angular · PrimeNG

UI & Design Systems

- Design Systems
- Component-based UI
- BEM · OOCSS · SMACSS

Tools

- Git · GitHub · GitLab
- Figma · Figma Jam
- Adobe · Sketch
- Miro · Trello

LANGUAGES

- Spanish – Native
- English – B1/B2
- Portuguese – Advanced

ENRIQUE SÁEZ MATA

Senior UI Engineer · Design Systems · Front-End Architecture

PROFILE

Senior UI Engineer with 20 years of experience delivering **scalable interfaces and design systems** for fintech and enterprise clients. Expert in HTML, CSS (SASS, BEM) and Angular component libraries, **ensuring reusable, maintainable code** and seamless cross-functional collaboration. Experienced working in multidisciplinary teams to deliver maintainable solutions aligned with Design Systems.

EXPERIENCE

Senior UI Engineer

[Inercya Intelligent Software](#) · 2023 – Present

Development of scalable UI and design systems for national and international clients.

- Implemented front-end architecture with HTML and SASS, establishing a modular codebase that streamlined UI development
- Integrated Angular framework and PrimeNG component library, enabling faster feature delivery and consistent UI patterns
- Defined UI standards and visual consistency guidelines, improving design cohesion across multiple projects
- Collaborated with product and development teams to align UI implementation with business requirements, reducing rework

UI Team Lead

Mindata · 2022 – 2023

Led UI/UX team in corporate web environments

- Organized UI workflows and coordinated the team using Trello, which streamlined task tracking and reduced handoff delays
- Aligned design, business, and development requirements by applying BEM, OOCSS, and SMACSS methodologies, ensuring a unified implementation across projects
- Ensured quality and consistency of deliverables through regular design reviews, leading to fewer revisions and higher stakeholder approval

Senior UI Engineer / UX

Hiberus · 2022

UI development for RTVE digital platform (high-traffic environment)

- Implemented accessible and maintainable interfaces using BEM and SASS, improving code reuse and meeting WCAG accessibility standards
- Collaborated with Agile teams to deliver component-based UI features in PrimeNG, accelerating release cycles and enhancing user experience

Senior UI Engineer

GFT Technologies · 2015 – 2022

Digital Transformation Programs for BBVA (Enterprise Design System)

- Developed UI and web components using HTML, SCSS and Agile methodology within the Digital Transformation programme, ensuring visual and functional consistency across BBVA platforms
- Designed and maintained a design system in Figma and Adobe, accelerating UI delivery timelines and reducing friction in the design-to-development handoff
- Coordinated UI standards and team best practices, implementing BEM naming conventions, Accessibility guidelines and code-review processes that reduced interface defects

Clients: BBVA, Inditex, Bankia, Deutsche Bank, Sabadell, Repsol

Previous Experience

2010 – 2015 + earlier

- Designed and implemented UI and UX for multiple projects using Sketch, Figma, Adobe, delivering a more consistent user experience across the product line
- Specialized in interface development and front-end architecture, creating reusable components that streamlined the codebase and reduced development effort

AI & AUTOMATION

AI & Development Tooling

Experience working with AI tools and workflows, **including MCP integrations** (Figma), **development assistants (Claude Code)**, and advanced use of LLMs such as ChatGPT, Claude, Gemini and DeepSeek.

Focused on enhancing UI development, design workflows and productivity.

STRENGTHS

- **Hybrid profile:** UI Engineering + Front-End + Design Systems
- Strong expertise in HTML/CSS architecture
- Experience in complex environments (fintech, enterprise)
- Ability to bridge design and development
- Focus on quality, consistency and scalability

EDUCATION

Multimedia Content Specialist

University of Córdoba · 1997 – 1999
